

22nd May 2017.

Dear Parents/Carers,

We have recently been involved with Liverpool University as part of our science topic. We have planted some sunflower seeds in school, and plan to sow them in the University grounds this Thursday afternoon.

If your child mentions in a few weeks that they would like to go and see how the seeds have grown, it is at the CTL building (Central Teaching Laboratory) at the top of Brownlow Hill.

Thank you.

Yours sincerely,

Mrs. Buckley.
Phase Leader.
