

Wellcomm: Section 3

Your child has been screened using the Wellcomm screening tool. The results show that they need support with their communication in the following areas. We understand that they may be doing some of these things at home already, but they have not yet demonstrated these skills at school.

We will be working on these areas in class and would appreciate your support. If you can, please work on the areas that are highlighted at home when playing and talking with your child.

We will be rescreening your child in 12 weeks.

- Relating two and three objects together
- Pointing to their eyes/nose/mouth
- Carrying out actions on toys
- Following 2-word instructions
- Following instructions out of the routine
- Occasionally putting two words together when talking
- Giving you an item on request
- Point to the correct picture when asked
- Using everyday objects on himself
- Pretending to use objects on himself
- Following everyday instructions
- Starting a routine or game with an adult
- Point to things of interest
- Using words to request things
- Using gestures to request things
- Using his/her name
- Joining in with songs and rhymes
- Starting to tell you about things that they have seen

If you have any questions or need help with how to work on these areas, please let us know as we are happy to help.
